## A German Report

The following war report from German sources was received at Honolulu yesterday:

"Washington, D. C., April 12—German headquarters report, April 12:

"On Sunday the west front was comparatively quiet. The French attacks in the Argonne, Combrès Height, the position at Ailly and Priest forest were all repulsed.

"Since the enemy's attack killed with bombs three women in the open town of Muellheim, German bombs have been dropped on Nancy, in the center of the fortification group. French officers have told that the cathedral of Notre Dame in Paris, the Louvre and art buildings and Invalides buildings are all used for military purposes, such as searchlights, wireless apparatus and machine guns.

"In the German advance eastward from Mariampoli, nine Russian officers, 1356 men have been taken prisoners and four machine guns taken. Northeast of Lomea the Russians threw bombs of a non-exploding but asphyxiating gas type.

"The Russians officially circulated report of the mutilation of Russian non-commissioned officers in the presence of German officers is a flat and non-sensical lie, of which no discussion is necessary.

## CONGRESSMEN

(Continued from page 1.)

Late afternoon—Party will be divided, about one half stopping on the Waimea side and the others returning to Lihue.

Evening—Receptions on the Waimea side and in Lihue. The letter may be in Lihue Social hall or the County building.

Morning of the fourteenth, the guests will be in charge of individual hosts, the Waimea contingent leaving over there in time to join the party at Lihue for the start to Hanalei at 1 p. m.

Sail from Hanalei at about 5 o'clock for Honolulu.

This is, of course, merely the outline of the program. It is understood that the Spouting Horn, Kukuilono Park, the Barkling Sands, possibly the canyons and other sights will be visited; while the homestead areas and some of the plantations and mills will be inspected. Nawiliwili harbor will be looked over and the brackwater project explained.

Of course it is understood that if the weather is exceedingly bad, the Hanalei part of the tour will be cut out.

A feature of the program, in case the weather is as good as it should be at that season, is for ladies and children who may not care for so much travelling as the main program calls for, to proceed to Hanalei where they will be entertained until joined by the main party.

Messrs. E. H. W. Broadbent, H. Rohrig, W. H. Rice, Jr., and T. Brandt were appointed a committee on transportation.

Messrs. H. Rohrig, F. Weber (Lihue) and H. D. Wishard were named a committee on finance.
